

ASSISTIVE TECHNOLOGY USING CLICKER 6 AND BOARDMAKER

CONNECTING STUDENTS
TO THEIR FUTURE

Friday, February 23, 2018

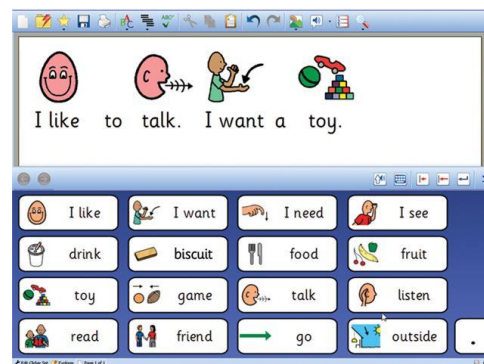

We can build inclusive educational practices through the use of technology with students. Join Pamela Gurney as she leads a workshop on the programs Boardmaker and Clicker 6. Learn how to create symbols and visuals on Boardmaker. Also learn how to access free resources as well as how to create sentences and stories using Clicker 6. This is a face to face workshop with hands on learning!

Technology will be supplied.

This in-service is open to classroom teachers, LARTs and District Resource Room Teachers.

Registration: <https://goo.gl/forms/vpiU6lvFIGT5asDe2>

If you have any questions, please contact
